

A unique, quirky, and versatile venue set at the heart of East London's creative community in Brick Lane, 93 Feet East offers a variety of unique, multi-functional event spaces.

This, alongside the experience and expertise of our in-house events team, means we have the tools to provide you with a comprehensive solution for your event, be it private or corporate.

With two large inside spaces, an expansive open-air courtyard, a terrace and our collection of smaller more 'boutique' rooms, meaning we can offer you the creative space and service that you and your guests will remember for all the right reasons.

OUR HISTORY

Built nearly 200 years ago at the very start of Queen Victoria's reign in the 1830s, the oldest parts of the venue occupy what was originally built as a large family home for The Truman Brewery's chief engineer. A Grade II listed building, 93 Feet East offers not only flexible, practical event space but also a unique backdrop with numerous original features and design elements.

A reminder of its origins as the biggest brewery in the world during its height we've taken our name from the original marker still on display in our courtyard denoting that the freehold of Messrs Truman, Hanbury, Buxton & Co 'extends 93 feet east and 17 feet and six inches north of this stone.

Our recent refurbishment and rebrand has been a nod to our roots and history, both more recent and stretching back nearly two centuries at our location in East London. Our industrial heritage and modern style reflected in the raw, stripped-back interior elements where vast concrete walls and original parquet flooring merge the old and new.

THE COURTYARD

Outside space is now more of a sought-after commodity than ever amongst event bookers, party planners and ours provides a large, unique space that steps directly off the buzz of Brick Lane. Ideal for food markets, daytime gatherings or a party under the stars, the Courtyard works as its own functional space, or as a place to offer guests the chance to sit away from the entertainment inside. A stairway leads up to a smaller additional outdoor terrace, looking over the main space that is available on request. Now featuring three fully covered and heated areas the Courtyard is useable to weatherproof.

MAIN ROOM

Available as a second room to The Live Room – or for exclusive hire – this space is ideal for day or night events. With large industrial windows running along the interior wall, there is lots of natural light, which can be diffused with a sheer blind option or fully blacked out depending on your needs. The Bar has a large DJ booth, lighting system, full sound and projection capabilities, large bar and seating options making this a flexible space – perfect as much for a party as it would be for a yoga class.

LIVE ROOM

This space is perfect for performances and music events. It has customizable staging and no windows, which allows for optimal use of lighting and sound. The space features a large bar, high ceilings, a raised production desk, and screen options. The Live Room is an excellent choice for hosting concerts or performance shows.
